Decree in Chancery.
By virtue of a decree of the superior court of chancery for the Richmond district, pronounced on an appeal, wherein Sarah Chapman, widow of Carr Chapman, deceased, and Susanna Chapman, an infant daughter of the said Carr Chapman, by the said Sarah Chapman, her guardian, were appellants; and Thompson and Veitch were appellees, I shall, on the first Monday in April next, before the court house of Prince-William county, sell to the highest bidder, for ready money, or on a credit of 6, 12 & 18 months,

A Tract of Land,
IN the same county, which was granted to Thomas Chapman by deeds of lease and release from William Tebbs for 69½ acres, bearing date the 17th and 18th days of June, 1774.
Also, one other tract of Land, in the same county, which was conveyed to the said Thomas Chapman by deeds of lease and release from Bertrand Ewell and his wife, and Jesse Ewell and his wife, for 26 acres, more or less, bearing date the 9th and 10th days of April, 1775.

Also, one tract or parcel of Land, which was conveyed to the said Chapman by deeds of lease and release from Jesse Ewell and his wife, and Bertrand Ewell and his wife, for 150 acres, more or less, bearing date the 2d and 3d days of January, 1784, all of which deeds are now of record in the county court of Prince William. And also, all the other estate, right, title, claim and possession which Carr Chapman, on the 20th November, 1797, had of and in to the land and real estate whereof his father or any of his ancestors had died, seized or possessed. The above description is taken from the mortgage deed executed by Carr Chapman to Thompson & Veitch on the 20th November, 1797, and now recorded in Prince William court, under which the property is sold. It is understood that the three tracts of land have been united into one which adjoins the town of Dumfries. On it there is a dwelling house & some wood. The general rights described will, as it is believed, comprehend a fourth part of the reversion of all the dower land of Susanna Gwinett, and one fourth part of the reversion of all the land devised by Thomas Chapman to Elizabeth Overall, after the death of the said Susanna and the said Elizabeth. Bond and approved security will be required.

CONGRESS.

HOUSE OF REPRESENTATIVES.

Monday, March 7.

Mr. Porter presented a petition from a number of patentees of improvements in the useful arts, residing in Philadelphia, praying an extension of the terms of their patents.

Mr. Boyle, from the committee on public lands, reported a bill supplemental to the act regulating grants of lands in the Michigan territory. Made the order for Thursday.

Mr. G. W. Campbell from the committee of the bill regulating the compensation of the clerks in the different departments of the government. Made the order for Friday.

A message was received from the President of the United States, on the subject of the New Orleans Batture, accompanied by a number of documents.

The speaker laid before the house some resolutions of the legislature of Kentucky, declaring their confidence in the federal executive, and pledging themselves to support any measures which the honor or interest of the nation may be deemed to require. Laid on the table.

Mr. J. Clay from the committee appointed to enquire into the expediency of amending the several laws for the encouragement of learning, and the promotion of the useful arts reported a bill. Made the order for Friday.

The house resolved itself into a committee of the whole on the bill regulating proceedings in court martial and courts of enquiry, Mr. Storer in the chair. On a previous day, a motion was made to strike out the first section. The question was put and lost—Ayes 36—Noes 62—Some amendments to the detail of the bill having been made, they were reported to, and concurred in by the house. The ayes and noes were demanded, on having the bill engrossed for a third reading. Ayes 65—Noes 43.

The house resumed the consideration of the bill authorizing the sale of arms to the individual states, to which some amendments were made in committee of the whole on a former day. An amendment was offered by Mr. Bibb of Georgia allowing to creditor states the right of receiving arms on account of the debts due them. In the course of debate Mr. Bibb called the attention of the house to the quarter whence the opposition to the amendment came. It was not he observed from those who represented the agricultural interests of the country but from those who represented the commercial interests. He farther stated that it was the conduct of the merchants which had put the country into a situation to require the militia to be armed and that they now refuse the means. Messrs. Ely and Bacon who had opposed the amendment, replied that they did represent the agricultural interests of the nation and Mr. B. added that he was the "representative of thirty thousand FREEMEN."

Tuesday, March 8.

Mr. Lewis presented the petition of praying that the benefit of the insolvent laws of the district of Columbia may be extended to non-residents who may be seized on execution within the district. Referred to the committee on the affairs of the district of Columbia.

Mr. J. Montgomery reported a bill supplementary to the act for laying out and making a road from Cumberland, in the state of Maryland, to the state of Ohio.

Mr. Van Horne called up the resolution laid by him on the table a few days since, for altering the constitution of the U. States. It was referred to a committee of the whole house on the state of the union, and ordered to be printed.

The bill concerning courts martial and courts of enquiry, was read a third time.

Mr. Bassett moved to recommit the bill, as it contained a power to drag witnesses from one extreme of the United States to another.

Mr. J. Montgomery opposed the recommitment. The principle was a correct one. Every accused person ought to be confronted with his witnesses.

Mr. M. D. Williams was in favor of the recommitment. There were principles contained in the bill which he could not approve. Where was the necessity for giving to courts of enquiry the power of dragging witnesses before them, when the testimony which they gave, could not, by the existing regulations, be admitted as testimony before a court martial. He also considered that part of the bill which gave the power to compel the production of records, highly exceptionable. He could not consent to vote for the bill as it then stood. If gentlemen would agree to recommit it, he thought it might be rendered palatable to all.

Mr. Fisk could not discover the force of gentlemen's objections to the bill, or believe it was proper to recommit it. Depositions were the most fallacious kind of testimony, and ought not to be admitted on trials involving the lives or reputations of our soldiers. No danger could result from the grant of the power—it was amply guarded against by the provisions of the bill. He extended his ob-

servation in support of the bill to considerable length.

The recommitment was further supported by Messrs. Livermore and Mason, and opposed by Messrs. Bacon and J. Montgomery, when the bill was recommitted.

The bill providing for selling certain arms to the individual states, was read a third time. Its passage was opposed by Mr. Gardner, and supported by Messrs. Livermore, Bibb, Lyon, Nicholas and Smilie, when the question on its passage was taken by ayes and noes and carried—Ayes 25—Noes 21.

The amendments made in the Senate to the bill in addition to the embargo acts were taken up, and concurred in.

The bill providing for obtaining an additional number of arms was returned from the Senate, with the following amendment:—"And for procuring Salt Petre and Sulphur, a sum not exceeding 150,000 dollars." The amendment was concurred in.

The bill remitting the duties on a monument to be erected to the memory of those officers who fell in the attack on Tripoli, was returned by the Senate with an amendment providing for the expences of erecting the monument in such place as the president should direct.

After a short discussion the question on concurring was taken by ayes and noes and lost—Ayes 18—Noes 59.

Adjourned.

Wednesday, March 9.

Mr. Durell, from the committee appointed to enquire into the manner of heating the representative hall, and its probable effect on the health of the members, reported, that in the opinion of the committee, the present method of heating the hall is injurious to the health of the members. They recommend the introduction of a ventilator, or a suspension of the use of the furnaces. Ordered to lie on the table.

The house went into committee of the whole on the bill respecting courts martial and courts of enquiry, Mr. Storer in the chair. A number of amendments were proposed, and some discussion took place. The bill was reported as amended, concurred in by the house, and ordered to be engrossed and read a third time on Friday next.

Mr. Nelson, after some well conceived and well expressed preliminary observations, offered a resolution for appointing a committee to enquire into the expediency of repealing so much of the pension act as requires applicants to make affidavit that they are not on the pension list of any state, which was adopted.

NEW YORK, March 11.

We learn by the brig Hope, arrived last evening, that 20,000 French and Spanish troops were quartered in Lisbon; and that another French army of 10,000 men had entered Portugal. It is further stated, that there is no cordiality between the Portuguese and French—that when the French flag was hoisted the inhabitants revolted, and would have succeeded if they had had a brave commander. They were got under by superior force.

It is further stated (and it came from one of the French officers) that during the march of the French army into Portugal about 2000 of them died of starvation and fatigue, and that they subsisted two days upon acorns.

Arrived, the sch'r Favorite, Sanger, of Norwich, in 21 days from Point-Petre, Guac. Four was 20 to 24 dolls. pork 25, beef 20 dollars.

A gentleman who left London on the 14th of January, and arrived here on Tuesday in the brig Terror, from St. Bartholomews, informs us that, according to the latest London papers, the Russian army were marching against Sweden; and that the inhabitants of Gottenburg, conceiving themselves to be unequal to its defence, were throwing down the walls, to prevent the horrors of a formal siege.

Capt. Avery, from Martinique, informs, that two French frigates arrived at Fort Royal on the 10th February, from La Rochelle, where they landed 500 troops and remained there until the 14th, during which time there was an embargo.

Captain Avery further informs, that the 1st January packet arrived at Dominique on the 3d of February, and brought orders to liberate all American vessels in that port.

The news of the release of the American vessels was received at Martinique by a flag of truce.

PHILADELPHIA, March 12.

Yesterday arrived the brig Saunders, capt. Singleton from Madeira, which he left the 10th ult. at which time the news of our embargo had not reached that island—Flour in plenty at 9 dollars.

From Havana, Jan. 14.

"The Intendant of this city has issued an order, demanding, that the merchants who hold American produce, shall furnish for the use of government, 6744 barrels of flour, 1027 barrels pork, 1251 bbls beef, 63,562 wt. of good beans, and 95,813 wt. of ordinary, 2396 jars of oil and 8 barrels of vinegar; which if not delivered in ten days, he will take measures for obtaining by force, for the use of his Catholic Majesty's troops." We have says the Byston Centinel the Havana Gazette which contains this order.

From Antigua, Feb. 12.

"Since my last of the 25th ult. nothing material has occurred.

The first January packet arrived here yesterday, in a remarkable short passage.

She has brought London papers to the 10th Jan.—but they contain nothing of moment except the embarkation of the royal family of Portugal, for the Brazils.

Accounts from Barbadoes say that orders

have come out by this packet, to treat the American flag with respect.

I have annexed you all the commercial information, which has come under notice, or that I could obtain.

Ship Libra, Francis, of and for Newburyport, from Guadaloupe, was brought in here yesterday by the Hawk, and part of the cargo is libelled.

Schr. Caroline, Edwards, of Baltimore for Guadaloupe to Dominique, detained by a privateer.

Ship Sarah, Sutton, of and for New Orleans from Bordeaux, is sent into St. Kitts—captain and supercargo arrived here this day. It is expected she will be libelled.

British ship Friendly Intention, from Norfolk to this port, has been captured and sent into Martinique.

The schr. Milford, Sayre, was sent in here on her passage from Guadaloupe to Philadelphia, but was immediately liberated and sailed.

Brig Sally, Annsdell, from Philadelphia to Savannah, put in here in distress, repaired and has proceeded on her voyage to Savannah.

Feb. 13.—The schrs. Raven and Sophia Ann, both from Point Petre, are this moment brought in. The former belongs to and was bound for Salem, and the latter for Newburyport.

The ship Argo, of Boston, has arrived at St. Bartholomews, from Bordeaux.

The schr. Jefferson sailed from Point Petre in company with the ship Libra, bound for Philadelphia.

BALTIMORE, March 12.

The ship Mary and Eliza, Simmonds, of Providence, R. I. arrived at this port on the 8th inst. in twenty days from the Havanna, gives us the following information.

On the twenty-first of February, in lat. 24, long. 82 29, spoke schooner William and Samuel, Orb, master, of and for Philadelphia, ten days out from Jamaica—passenger captain Robert Dagget.

February 25, lat. 29 20, long. 78 40, fell in with the brig Leander, Wilson, [dead] from Gambia for Charleston, with slaves. The captain had died on the coast of Africa, could get no information about the mate, but the command devolved on a Mr. Porter, the boatswain, when the Leander was captured by the British and sent into Dominique and the slaves liberated—about two-thirds left the vessel—Porter and the crew re-took the vessel and left the harbor unperceived in the night with the remaining slaves who rose and took command of the vessel. Porter and four men jumped overboard, and the remainder were put to death. Such was the situation of the brig when spoken by the Mary and Eliza. The slaves offered up the command of the vessel, but insisted to detain their fire arms, and being extremely short of provisions, it was judged prudent to leave the brig to her fate. One of the blacks who had been in the confidence of the captain, who spoke a little broken English, and who had received several wounds from the slaves in their massacre of the crew, arrived at Baltimore in the Mary & Eliza.

There are but two Americans in this place besides myself that are entitled to a patent: no foreigner without a patent is allowed to do any business: no captain or supercargo can enter or clear his vessel, and if vessels are not consigned, the business must fall into the hands of a broker, of which there are four established by government."

SOME time in the commencement of the year 1805 I became appearance bail for **Wm. H. LYLES** in the sum of 312 dollars and 39 cents.—At the same time the said Lyles proffered satisfactory assurances, that is to say, I should never be held responsible only as his bail.—But I am truly sorry to say the gentleman has violated a most sacred promise, for he has long since absconded from the district of Alexandria, so as to exonerate himself from a debt he justly owed and I, who was actuated by no other motive than that of friendship, held liable—I therefore feel no fear or reluctance in saying, a man who would injure a friend, more particularly in a case like this, would not hesitate to commit any act, admitting it to be of the most infamous and atrocious nature.

ADDITIONAL EVIDENCE.

OF the great efficacy of the *Patent and Family Medicines*, prepared by the late Richard Lee, jun. which for near eight years past have acquired throughout the United States a celebrity hitherto unequalled.

Philadelphia, August 9, 1800.

Being desirous to make public for the good of others, the excellent quality of HAMILTON'S ELIXIR, prepared by the late Mr. Lee, I have sent you the following account of the benefit I have received from it, which I hope will induce others to give it a trial. In consequence of a bruise on the breast received from a fall, my health grew bad, my breathing became very difficult, and frequently I have had suddenly to rise up in my bed with all the horrors of immediate suffocation. Add to these a constant pain in my breast and a cough, a great loss of strength and flesh, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, without giving me any relief. Another physician who knew me and the circumstances of my case, advised me to give *Hamilton's Elixir* a trial, saying, he had used it in his practice, and always found it do much good. A bottle was procured from Mr. Birch's, and I found relief before I had taken one half of it. I continued to use it and was soon strong enough to attend to business. On taking cold, some of my former symptoms return, but are always removed by a dose or two of the elixir.

GEO. BENNER, jun.

No. 11, Budd-street, Philadelphia
Mrs. H. Lee.

From *Luther Martin, Esq.* late Attorney-general of the State of Maryland.

I comply with your request in stating my opinion of *Hamilton's Elixir*. It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints, have rendered medicine necessary. I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness, and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend *Hamilton's Elixir* as a valuable medicine, and deserving public attention.

LUTHER MARTIN.

HAMILTON'S ELIXIR

Is recommended as the best remedy for coughs, colds, asthma, whooping-cough, approaching consumptions, and most disorders of the breast and lungs. This preparation will prove a valuable acquisition to public speakers who may be subject to temporary hoarseness, thickness of speech, &c. In long confirmed Asthmatic complaints where a cure can speedily be expected, this medicine affords immediate relief, moderating the fits of coughing, and rendering their recurrence less frequent. On children afflicted with the whooping cough, the like beneficial effects may confidently be expected.

ITCH CURED.

By once using *Lee's* Sovereign Ointment, which, although used for 20 years in Europe and for near 8 years in America, has never been known to fail in any one instance. It is perfectly innocent, warranted not to contain a particle of mercury or any pernicious ingredient, and may be used with perfect safety on an infant, being a vegetable preparation and entirely free from the offensive smell which attends most other remedies.

HAMILTON'S LOZENGES,

Which have cured more children and adults of disorders proceeding from worms, than all the medicines heretofore discovered. In addition to the great cures mentioned in the letters from the chancellor of the state of Maryland, the Rev. Mr. Molthier and others, lately published the following are submitted to the public; being selected for the purpose of shewing the mild yet powerful qualities of this extraordinary medicine, which, although so mild in its operation, is competent to expel the formidable tape worm.

An infant, aged 5 weeks, of Mr. Henry Ewbank, taylor, Charles-street, Baltimore, was dangerously afflicted with convulsion fits, so that his life was despaired of, but was perfectly cured by one dose of *Hamilton's Worm Lozenges*, which expelled several worms, the undoubted cause of the child's disorder.

Letter from Mr. Ackerman, bricklayer, Magazine street, near Broadway, Jan. 24, 1802.

It would be ungrateful were I to withhold my testimony in favor of *Hamilton's Worm Destroying Lozenges*. I had been between five and six years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits and other obvious symptoms of worms; but frequently hearing your *Worm Lozenges* recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first dose evacuated twelve or 13 feet of a tape worm; two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded forty feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly: it produced the same good effect in this instance, expelling a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.

HENRY ACKERMAN.

ALSO,

The following new and valuable Medicine, just received and for sale as above.
(Price, Two Dollars per bottle.)

Dr. Tissot's celebrated Gout and Rheumatic Drops.

NOTHING is of more importance than the preservation of health—this common maxim remark however is too often forgotten, whilst we are active and strong—and prevention of pain, which is superior to its cure, is not sufficiently attended to by any description of persons. Among those disorders which require the most early and unremitting efforts to eradicate and overcome, none have a stronger claim upon our notice than the Gout, Rheumatism, Lumbago, Weakness of the Joints, Sprains, Glands, the Stone and Gravel, the Cramp and every species of Rheumatic Pains from whatever cause they may have originated—and hence every relief which can be administered is too valuable to be forgotten. Those persons whose vocations peculiarly expose them to colds, &c. cannot be too anxious to possess immediate aid. Sea-faring persons, travellers, &c. ought constantly to carry with them that medicine which will counteract the unpleasant effects of their perilous duties, and especially those pains to which their situation must expose them. To those who reside in or visit the West-Indies, and other warm climates, they will be found upon trial to convey the most lasting service, and

will gradually destroy all tendency to return in the human frame, and preserve health and vigor. Although a great variety of preparations have been published to cure the Gout, the GOUT and RHEUMATIC Drops of Dr. TISSOT, which are celebrated throughout the European continent, and whose certificates already published of general well known in America, being of the first sequence in the state of Maryland: Charles Ridgely, of Hampton; John Gubbins, Esq. one of the directors of the Farmers' Bank of Maryland; John Macubbin, Esq. of Baltimore, his wife; and Mrs. Ryan, of Baltimore.

Certificate of Mr. Thomas Kelso, butcher.
About three weeks since I was miserably attacked with Rheumatic pains throughout my whole frame, in so severe a manner as to be able to turn in my bed without assistance, proceeding as I suppose from a severe cold, on being advised by a friend to apply Dr. Tissot's Gout and Rheumatic Drops, I accordingly obtained from the agents Messrs. George Dobbin and Murphy, two bottles, the application of which, under God, have perfectly restored me to health. I am therefore indebted with confidence to recommend this medicine as a certain cure for the above disorder.

THOMAS KELSO.

Baltimore, July 22d, 1806.
Certificate of Mr. Thomas Campbell, Harness maker

It would be an act of injustice to withhold my testimony of the salutary effects of *Dr. Tissot's Gout and Rheumatic Drops*, as I have experienced a very unequivocal instance of their virtues and efficacy. I was afflicted with two severe attacks of what is usually called Dead Palsy, from which I partially recovered, but was obliged to use crutches to aid me in walking when I left home; to this were joined violent Rheumatic pains, the result of the affliction; and I had feared the disorder would accompany me through life; but providentially was recommended to apply to *George Dobbin and Murphy's* for Dr. Tissot's Drops, and after using only one bottle, found myself perfectly liberated from my disorder, and am, thank God, as free from pain as if I never had been afflicted. Finding this medicine operated so powerfully on myself, I determined to apply it internally to my child, a boy only eleven months old, who was then reduced almost to a skeleton with the Bowel Complaint; after administering it four times to him, his complaint was entirely removed, and he is now covering his strength with great rapidity.

T. CAMPBELL.

Baltimore, July 23, 1806.

AT a general assembly of the state of Connecticut, held at New-Haven, on the second Thursday of October, A. D. 1807.—Upon the petition of *Simon Loomis*, of East Windsor, in Hartford county, showing to this assembly that by means of various misfortunes he is reduced to poverty, praying for an act of insolvency; and that some of his creditors are resident in the states of New-York, Virginia and Georgia, as per memorial on file dated the 21st day of September, A. D. 1807—

Resolved by this Assembly, That said petition be continued to the session of this assembly to be holden in Hartford, in May next, and that notice of the pendency thereof be advertised in some of the newspapers published in the city of New-York, Alexandria in Virginia, and Savannah in Georgia, three weeks at least six weeks before said session; which shall be good and sufficient notice to the creditors in the said states of the pendency of said petition.
